DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 3, 6, and 27 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The newly added limitation to claim 1 setting forth the second layer being formed at least in part of insulation material was not originally disclosed. The second layer was only disclosed to have been completely formed of insulation material.

Allowable Subject Matter

Claims 13, 14, 18, 19, 26, and 28 are allowed.

Withdrawn claims should be cancelled if not properly dependent upon an allowed generic claim.

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
